AIR PURIFICATION SYSTEMS (DE-DUSTING FILTERS)

BULK HANDLING SYSTEMS

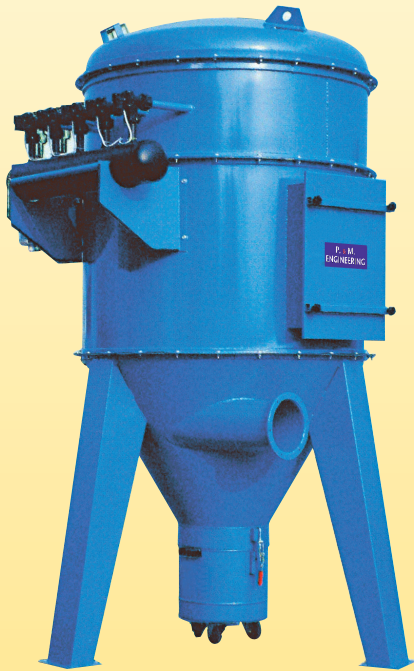

**DESIGN,
MANUFACTURING
AND INSTALLATION
OF AIR PURIFICATION
AND BULK HANDLING
SYSTEMS FOR
INDUSTRIAL
APPLICATIONS**

- CEMENT FACTORIES
- FOUNDRIES
- LIME KILNS
- CHEMICAL INDUSTRIES
- PLASTIC INDUSTRIES
- ASPHALT PRODUCTION
- BULK MATERIAL MARINE TRANSPORTATION
- PHARMA INDUSTRIES

**OUR POLICY IS TO DESIGN AND MANUFACTURE H
PRODUCTS AT AFFORDABLE PRICES AS WELL AS
WITH OUR CLIENTS PROVIDING RELIABLE A**

DEDUSTING APPLICATIONS

JET FILTERS

- Bag houses
- Spare parts for bag houses
(filter bags, cages, cartridges, diaphragm valves, membranes, control systems)
- Cyclones
- Air washers (Wet scrubbers)
- Plastic scrubbers for chemical industries
- Deodorization systems
- Industrial ventilation

WET SCRUBBERS
FROM PLASTIC

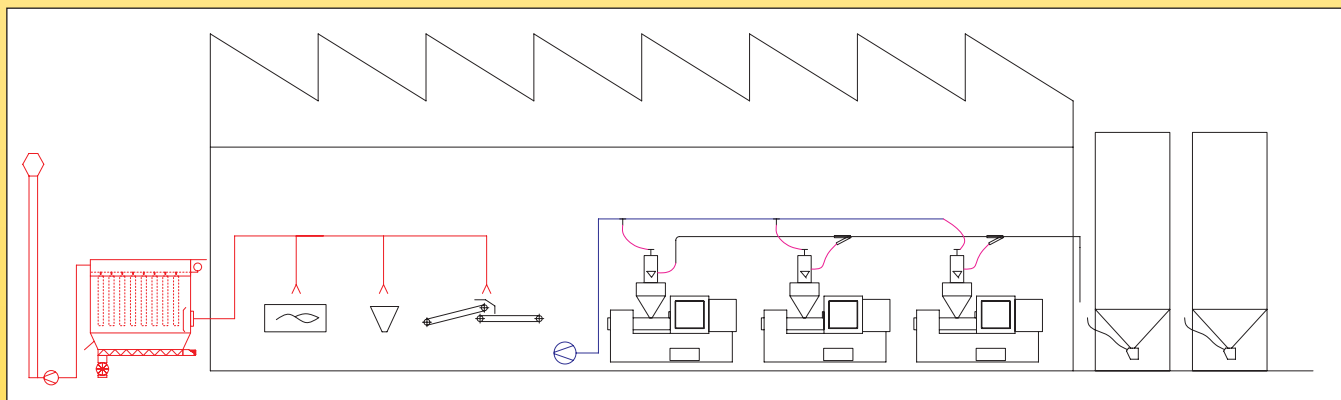

PIPES AND FITTINGS FOR DEDUSTING PLANTS

HIGH QUALITY RELIABLE AND FUNCTIONAL AS TO DEVELOP RELATIONSHIPS OF TRUST AND INSTANT AFTER SALES SERVICE

BULK HANDLING SYSTEMS

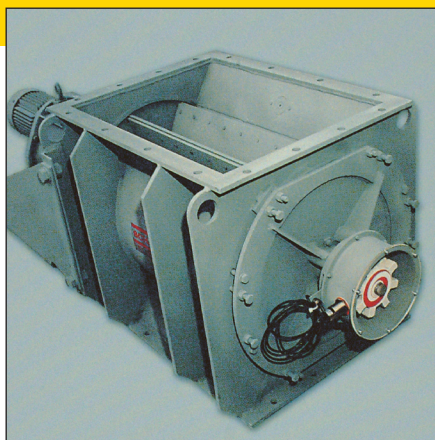

- Storage silos (stainless steel or normal steel)
- Silo's equipment (top filters, level indicators, aeration pads, vibrating cones, pressure relief valves)
- Weight and conveying of raw materials for different applications (Plastic, food, chemical, mineral and cement industrie).
- Bag and big bags unloading stations.
- Mixers
- Dryers

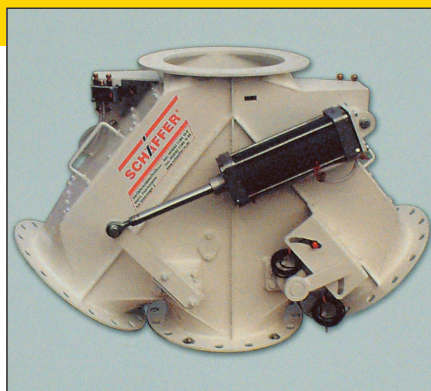

PNEUMATIC CONVEYING SYSTEMS FOR FEEDING RAW MATERIALS IN THE PLASTIC INDUSTRIES.
DEDUSTING DIFFERENT WORK PLACES

EQUIPMENTS FOR FILTERS AND BULK HANDLING SYSTEMS

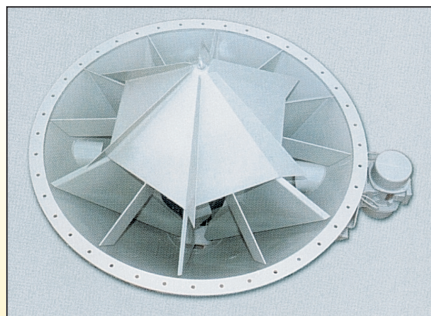

Rotary valves
drop or blow through

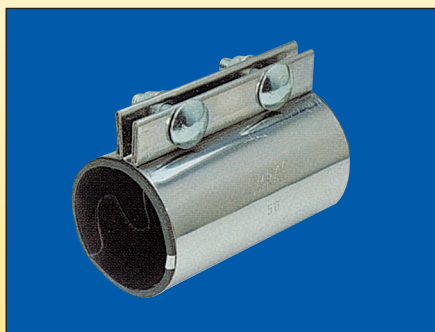

2 or 3 way diverter valves

Slide gate valves

Vibrating cones

Pipe connectors for pneumatic conveying

Loading bellows
